

Optum Physical Health Clinical Submission Process Tutorial

REVISED: 7/01/2015 OptumHealth – Physical Health. UM Dept.

Patient Summary Form (PSF-750)

- The simplified one-page form collects clinical and administrative information

Patient Summary Form

PSF-750 (Rev. 11/2015)

Instructions

Please complete this form within the specified timeframe. All PSF submissions should be completed online at www.myoptumhealthphysicalhealth.com unless otherwise indicated.

Please review the Plan Summary for more information.

Patient Information

Female Male Patient date of birth: / /

Patient name: Last First MI

Patient address: City State Zip code

Patient insurance ID# Health plan Group number

Referring physician (if applicable) Date referral issued (if applicable) Referral number (if applicable)

Provider Information

1. Name of the billing provider or facility (as it will appear on the claim form)

2. Federal tax ID(PTN) of entity in box #1

3. Name and credentials of the individual performing the service(s):

4. Alternate name (if any) of entity in box #1

5. NPI of entity in box #1

6. Phone number

7. Address of the billing provider or facility indicated in box #1

8. City 9. State 10. Zip code

Provider Completes This Section:

Date you want THIS submission to begin: / /

Cause of Current Episode

1 Traumatic 4 Post-surgical
 2 Unspecified 5 Work related
 3 Repetitive 6 Motor vehicle

Patient Type

1 New to your office
 2 Est'd, new injury
 3 Est'd, new episode
 4 Est'd, continuing care

Nature of Condition

1 Initial onset (within last 3 months)

 98941 98943

Current Functional Measure Score

Neck Index: DASH:
 Back Index: LEFS: (other FOM):

Patient Completes This Section:

Symptoms began on:

1. Briefly describe your symptoms:

2. How did your symptoms start?

3. Average pain intensity:

Last 24 hours: no pain (0) 1 2 3 4 5 6 7 8 9 10 worst pain
 Past week: no pain (0) 1 2 3 4 5 6 7 8 9 10 worst pain

4. How often do you experience your symptoms?

(1) Constantly (75%-100% of the time) (2) Frequently (51%-75% of the time) (3) Occasionally (26% - 50% of the time) (4) Intermittently (0%-25% of the time)

5. How much have your symptoms interfered with your usual daily activities? (including both work outside the home and housework)

(1) Not at all (2) A little bit (3) Moderately (4) Quite a bit (5) Extremely

6. How is your condition changing, since care began at this facility?

(0) N/A—This is the initial visit (1) Much worse (2) Worse (3) A little worse (4) No change (5) A little better (6) Better (7) Much better

7. In general, would you say your overall health right now is...

(1) Excellent (2) Very good (3) Good (4) Fair (5) Poor

Functional Outcome Measures

- Document the score in this section of the Patient Summary Form.
 - You may use other outcome measures.
 - Functional outcome measures are not required, but are highly recommended.
 - Please do not send in the actual outcome measure forms.

Patient Summary Form

PSP-130 (Rev. 7/12/2015)

Instructions
 Please complete this form within the specified timeframes. All PSP submissions should be completed online at www.optumhealthphysicalhealth.com unless otherwise indicated.
 Please review the Plan Summary for more information.

Patient Information

Patient name: Last First MI Female Male Patient date of birth:

Patient address: City: State: Zip code:

Patient insurance ID#: Health plan: Group number:

Referring physician (if applicable): Date referral issued (if applicable): Referral number (if applicable):

Provider Information

1. Name of the billing provider or facility (as it will appear on the claim form): 2. Federal tax ID(TIN) of entity in box #1:

3. Name and credentials of the individual performing the service(s): 4. Alternate name (if any) of entity in box #1: 5. NPI of entity in box #1: 6. Phone number:

7. Address of the billing provider or facility indicated in box #1: 8. City: 9. State: 10. Zip code:

Provider Completes This Section:

Date you want THIS submission to begin:

Cause of Current Episode

1 Traumatic	4 Post-surgical
2 Unspecified	5 Work related
3 Repetitive	6 Motor vehicle

Patient Type

1 New to your office
2 Est'd, new injury
3 Est'd, new episode
4 Est'd, continuing care

Date of Surgery:

Type of Surgery

1 ACL Reconstruction
2 Rotator Cuff/Labral Repair
3 Tendon Repair
4 Spinal Fusion
5 Joint Replacement
6 Other

Functional Outcome Measures

- OptumHealth recommends the following functional outcome measures:

– Neck Index	Neck Disability Index
– Back Index	Low Back Pain Disability Index
– DASH	Disabilities of the Arm, Shoulder and Hand
– LEFS	Lower Extremity Functional Scale

- Please select the outcome measure most applicable to the patient’s condition. Enter the score on the Patient Summary Form. The discharge outcome score should be entered on the Patient Status Report (PSR). (PSR instructions can be found in the clinical resources section of the Optum provider portal).

Back and Neck Index Forms

- Valid and reliable questionnaires.
- Completed by the patient.
- Used to obtain data about the patient's tolerance for activities of daily living (ADLs).
- When administered prior to, during, and after an episode of care, change in the score objectively measures and documents treatment outcomes.

Back Index
Form B1100

 OPTUM[®]

#v3/27/2003

Patient Name _____ Date _____

This questionnaire will give your provider information about how your back condition affects your everyday life. Please answer every section by marking the one statement that applies to you. If two or more statements in one section apply, please mark the one statement that most closely describes your problem.

Neck Index
Form N1-100

<p>Work</p> <p><input type="radio"/> 1 I can do as much work as I want.</p> <p><input type="radio"/> 2 I can only do my usual work but no more.</p> <p><input type="radio"/> 3 I can only do most of my usual work but no more.</p> <p><input type="radio"/> 4 I cannot do my usual work.</p> <p><input type="radio"/> 5 I can hardly do any work at all.</p> <p><input type="radio"/> 6 I cannot do any work at all.</p>	<p>Headaches</p> <p><input type="radio"/> 1 I have no headaches at all.</p> <p><input type="radio"/> 2 I have slight headaches which come infrequently.</p> <p><input type="radio"/> 3 I have moderate headaches which come infrequently.</p> <p><input type="radio"/> 4 I have moderate headaches which come frequently.</p> <p><input type="radio"/> 5 I have severe headaches which come frequently.</p> <p><input type="radio"/> 6 I have headaches almost all the time.</p>

Back Index Score

Neck Index Score

Index Score = (Sum of all statements selected / (# of sections with a statement selected x 5)) x 100

Scoring the Back and Neck Index Forms

$$\text{Score} = \frac{(\text{Sum of all statements selected})}{(\text{\# of sections with a statement selected} \times 5)} \times 100$$

- Each statement corresponds to the number preceding the statement. Calculate the score by adding the selected values of statements, divide the total by the maximum possible value of the sections, and multiplying the result by 100.
- Ideally, patients should answer all 10 statements. When all statements are completed, a short cut to scoring the form is simply adding all the responses and doubling that amount. For example if the sum is 25, the disability is 50%.
- Example of scoring an incomplete index: If the patient only completes 9 statements, the maximum possible value would be 45 (9 sections x 5 points possible per statement).
- If a patient selects 2 or more answers for one statement, use the answer with the highest value when calculating the index score.

***The Back/Neck index scores are a percent (%) of the maximum possible score**

DASH – Disability of the Arm, Shoulder, and Hand

- The DASH measures the level of an upper extremity disability.
- A valid and reliable measure.
- Scored by practitioner using the designated formula.
- Score is documented on the Patient Summary Form.

Scoring of the DASH

- Patients should complete all sections based on their ability to perform activities over the past week. Only one answer should be selected per question.
- At least 27 of the 30 items must be completed for scoring.
- The assigned values are summed and then divided by the number of questions answered. This value is transformed to a score out of 100 by subtracting 1 and multiplying by 25.

$$\text{DASH} = \left\{ \frac{(\text{sum of } n \text{ responses})}{n^*} - 1 \right\} \times 25$$

*Where n is the total number of questions answered

- Since the DASH is a measure of patient disability, **a higher score indicates a higher level of upper extremity disability.**

LEFS – Lower Extremity Functional Scale

- The LEFS measures lower extremity function.
- A valid and reliable measure.
- Completed by the patient.
- Scored by practitioner and documented on the Patient Summary Form.

THE LOWER EXTREMITY FUNCTIONAL SCALE

We are interested in knowing whether you are having any difficulty at all with the activities listed below because of your lower limb Problem for which you are currently seeking attention. Please provide an answer for each activity.

Today, do you or would you have any difficulty at all with:

	Activities	Extreme Difficulty or Unable to Perform Activity	Quite a Bit of Difficulty	Moderate Difficulty	A Little Bit of Difficulty	No Difficulty
1	Any of your usual work, housework, or school activities.	0	1	2	3	4
2	Your usual hobbies, re-creational or sporting activities.	0	1	2	3	4
3	Getting into or out of the bath.	0	1	2	3	4
4	Walking between rooms.	0	1	2	3	4
5	Putting on your shoes or socks.	0	1	2	3	4
6	Squatting.	0	1	2	3	4
7	Lifting an object, like a bag of groceries from the floor.	0	1	2	3	4
8	Performing light activities around your home.	0	1	2	3	4
9	Performing heavy activities around your home.	0	1	2	3	4
10	Getting into or out of a car.	0	1	2	3	4
11	Walking 2 blocks.	0	1	2	3	4
12	Walking a mile.	0	1	2	3	4
13	Going up or down 10 stairs (about 1 flight of stairs).	0	1	2	3	4
14	Standing for 1 hour.	0	1	2	3	4
15	Sitting for 1 hour.	0	1	2	3	4
16	Running on even ground.	0	1	2	3	4
17	Running on uneven ground.	0	1	2	3	4
18	Making sharp turns while running fast.	0	1	2	3	4
19	Hopping.	0	1	2	3	4
20	Rolling over in bed.	0	1	2	3	4
Column Totals:						

Minimum Level of Detectable Change (90% Confidence): 9 points SCORE: ____ / 80

Reprinted from Binkley, J., Stratford, P., Lott, S., Riddle, D., & The North American Orthopaedic Rehabilitation Research Network. The Lower Extremity Functional Scale: Scale development, measurement properties, and clinical application, *Physical Therapy*, 1999, 79, 4371-383, with permission of the American Physical Therapy Association.

The LEFS score is simply the sum of all responses.

*Please do not calculate a percentage.
